Importance: High

Good morning, Brian.

I spoke with Linda this morning and she said I could send some information over to you. I wanted to introduce myself as your new point of contact with LEAF. It looks like Adam had sent over some information in the past and I wanted to make sure that you were updated so we can start/continue that relationship!

We are currently running a 90-day deferred payment promotion, which is a WIN for everyone. The customer can acquire their equipment, worry-free of a payment for 90 days and we still fund you the same day just like it was a cash sale! Because of the federal rates raising we put together a GREAT promotion for our industrial customers – it's 5/12/0, which is 5% of the total cost down, 12 month term at 0% interest and the customer owns the equipment after 12 months! This is a great way for the customers interested to get locked into a 0% agreement without the worry of their rate increasing!

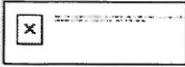

If you have any questions, concerns or customers I would love to help! I've attached a credit application and my direct line is below!

I look forward to working with you & your customers!
